Professional Skills	Business Intelligence Data Analytics Data-Driven Decision Making Problem-Solving Database Management Data Visualisation Project Management Strategic Planning

Work Experience

DATA ANALYST | Sparebankforeningen
Oslo, Norway | May 25 – Now

- Responsible for data collection and exploratory data analysis for an industry analysis of the Norwegian savings bank foundations in the Norwegian Savings Bank Association for the years 2022–2024.
- Took the initiative to develop an interactive Power BI dashboard that compiles and visualizes key data from the industry analysis. This gives the foundations easy access to comparisons with similar organizations and historical trends, while also eliminating much of the manual work required for future analyses.

BUSINESS DEVELOPER | Sparebank 1 Nord-Norge
Tromsø, Norway | May 24 – Aug 24

- Collaborated with a cross-functional team to analyze the Financial Data Access (FiDA) regulation and proposed Payment Services Directive (PSD3).
- Identified strategic opportunities and risks for the bank, presenting findings in a co-authored report to senior management which became mandatory reading for those working in business development.
- Gained insight into the bank's data platform migration strategy from SAS to Databricks and Snowflake, including database design, data pipelines, and script transformation processes presented by the head of data analytics.

Education

Business Administration and Data Science | Master of Science | Copenhagen Business School
Copenhagen, Denmark | Aug 23 – Jun 25

- GPA: 10.8 / 12.

Digital Business Development | Bachelor of Science | Norwegian University of Science and Technology
